

Peeling the Orange part 1

What is orange?

A strategy that combines the **family** with the **faith community** to demonstrate the message of God's story, in order to influence the next generation.

Orange is a color that suggests CHANGE. Over the next several days, we will send pieces of this puzzle for you to consider. The first piece is the restructure and additions to our staff positions.

Benn Stumph will serve as the "Family Ministries Pastor." This is a broad approach that involves the oversight of birth through college-age ministries. This change will require a TEAM of people to be effective in kids and student ministry at the mount.

Amber Stumph has been hired as the "Orange Assistant". Amber's role will include overseeing interns and nursery coordinators, administrating curriculum for the Orange Program and overseeing Connections Ministries at the Mount (hospitality, usher ministry, newcomer follow-up, etc.)

Three interns will teach and lead volunteer teams in the family ministries areas: Kadimay Garrison (preschool), Karsten Olson (K-6th grade), and Chad Keddington (youth).

We pray that you will be inspired and encouraged by this vision and direction for The Mount.

Be in prayer and be blessed,

The Orange Team
