

## **What is orange?**

Making people feel **significant** by giving them something significant to do.

Thinking Orange challenges our entire church body to serve together in unity.

Change can open new doors of opportunity. One specific area we would like to highlight is our **Music and Tech Ministry**.

The Tech Team is in need of 2 volunteers for each service on Sunday morning. These volunteers run the **sound board and media** (video, slides, music) during our services.

Another area of ministry is our **Worship Team**. All volunteers receive training and direction through our Worship Pastor, Teresa Olson.

Please respond to this email, or talk to Teresa if you would like to learn more about serving in these areas of ministry. We challenge you to jump-start your faith: **plug into a ministry and serve**.

Be in prayer and be blessed,

The Orange Team  
Mount Olivet Assembly of God
